This Squaresoft-sanctioned book on one of the most highly anticipated console games ever does not disappoint. Those who have managed to obtain a copy of the game (descriptions of rioting and fighting upon the retail release of Final Fantasy IIV sound like sheer hyperbole, but probably aren't) will find plenty of helpful clues, maps, and general game play advice. Those less fortunate can at least take solace in--or further whet their appetites with--the hundreds of beautiful glossy screen shots that fill each chapter.
